## 4MP Quad HD Camera

Designed to represent an enhanced picture quality in full HD video so that every detail can be viewed with vivid clarity and a pixilated video feed can be avoided.

## In-built Siren

This camera has been developed with an in-built siren to deter intruders. The in-built siren goes off as soon as unexpected motion is detected by the integrated PIR sensors.

## Motion Detection Alerts

The PIR sensors in this camera detect movements in the video frame and send alerts in real-time to always keep you notified about what's happening at home.

## Human Body detection

Whenever unexpected motion is detected in the video frame, the camera has been devised to rotate automatically to track the movement of people and record it to investigate later.

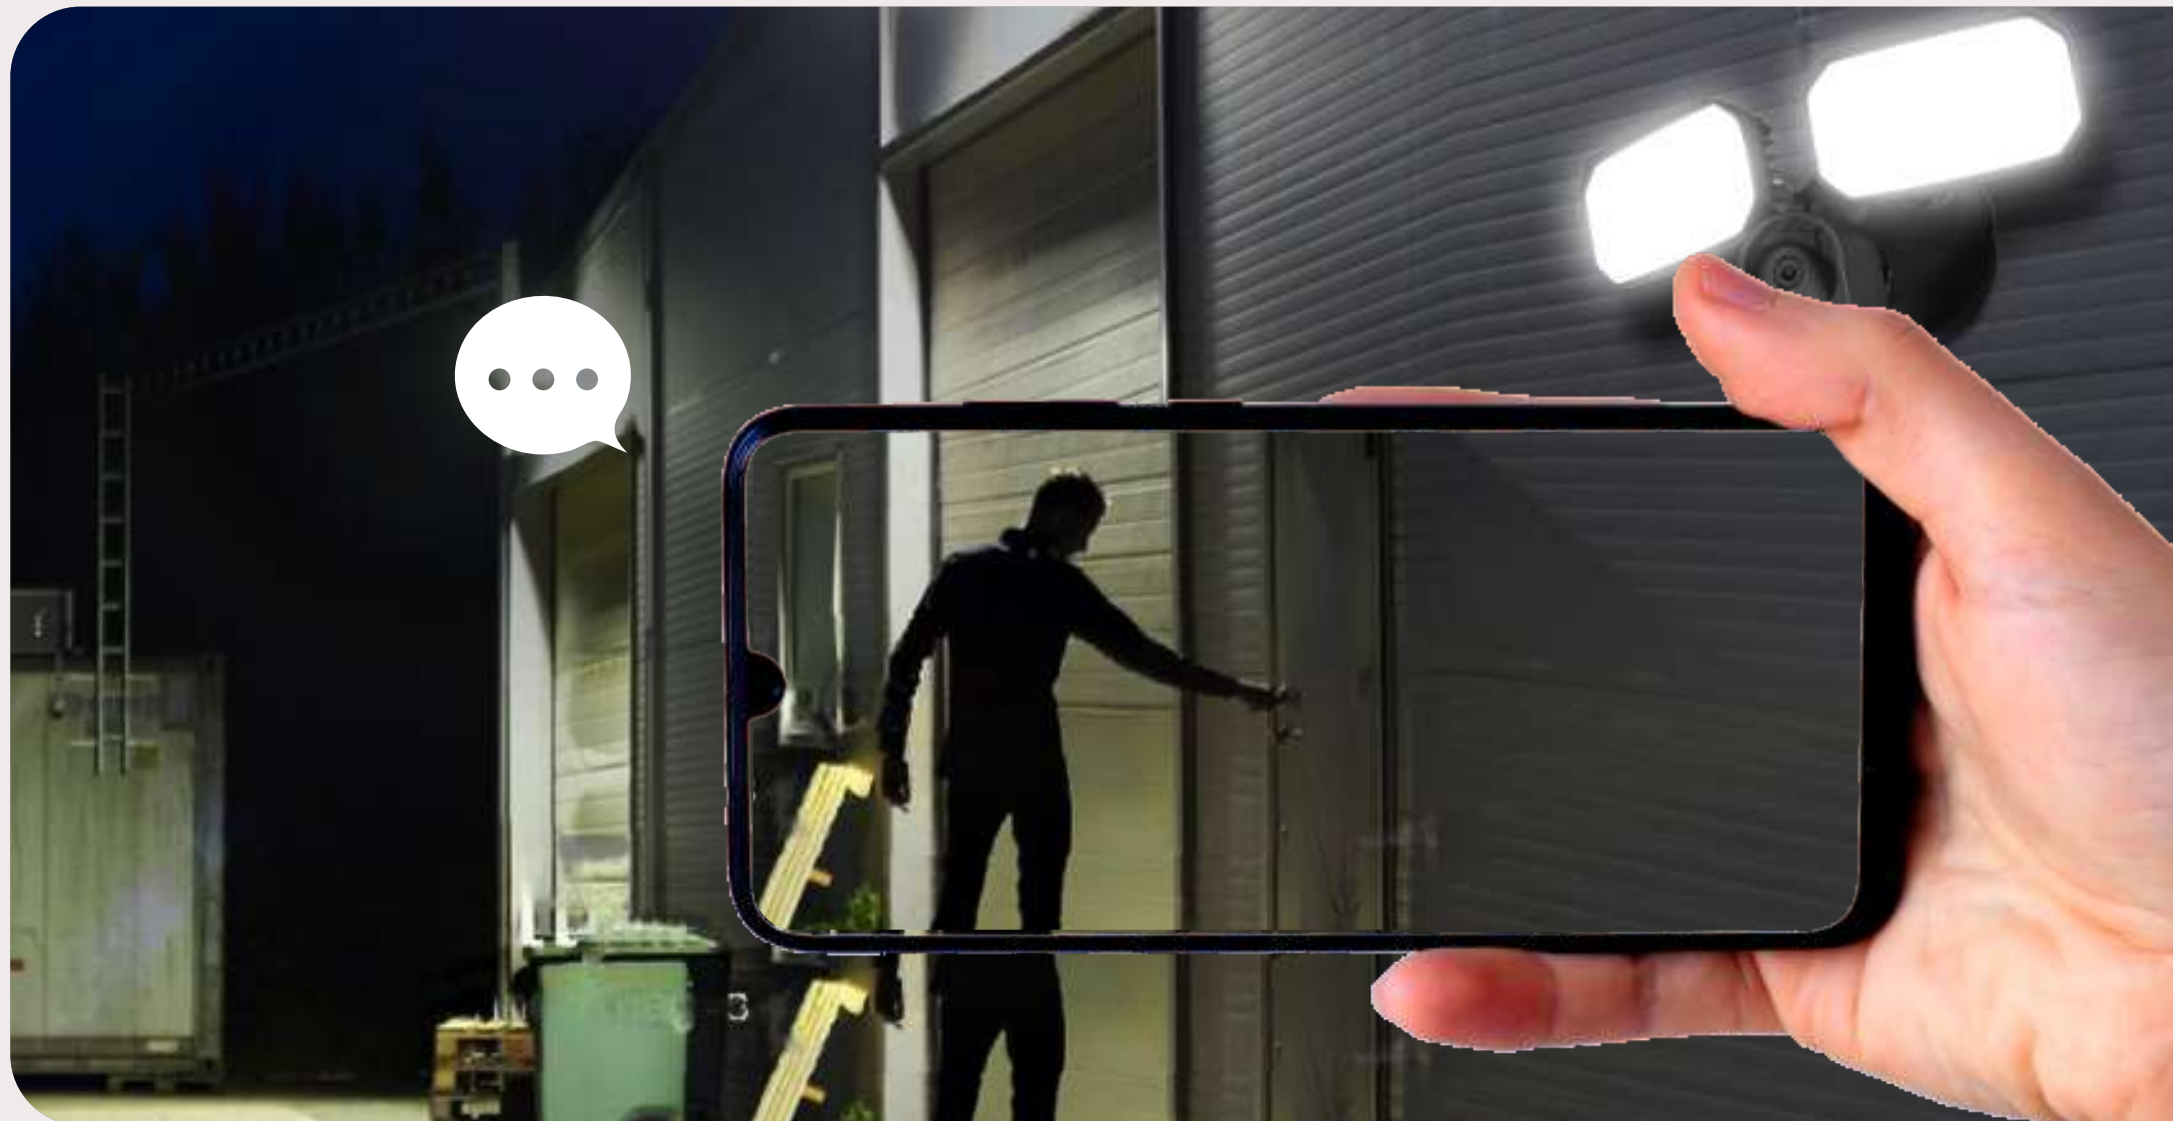

## Privacy Mode

Using privacy mode, you can block the camera view & recording of a specific area of your choice to maintain privacy.

## View & Talk

Enables you to stay in touch with your loved ones from anywhere, meaning you can also talk while viewing the live video feed on the phone.

## Floodlight

Built-In Dual floodlights provide 2500-3000 Lumen brightness to help shed a light even in the darkest places, to view every detail without the need to install external lighting.

## Full-Color Video

Provides much better video clarity, where every color can be viewed in detail while also enjoying a high-resolution video stream.

## Easy to Connect

This Ezykam by CP PLUS does not even require installation hassles and you can easily place it on a mount, plug it in, connect to the Wi-Fi and you are good to go.

## Alexa and Google Supported

Works with Alexa & Google Home so you can go hands-free and command the camera with your voice while enjoying the safety of a smart home.

## Full-Color Night Vision

Infrared lights provide B/W images and the full-color mode works with white light to provide colorful images during the nighttime. Whereas, the smart mode keeps the infrared lights on and whenever motion is detected in the video frame, it switches to white light to work as an active deterrent.

# Specification - F41A

Feature	Specifications
Resolution	4MP (2560x1440)
Video Compression	H.265
Minimum Illumination	0.01 Lux
Resolution	2560 x 1440
Flip/ Mirror	Supported
IR cut filter	Supported
Lens	4 mm
Frame Rate	20fps
Angle of View	(D) : 101.6°/(H) : 85.5°/(V) : 46°
Stream	Dual Stream
Audio Compression	G711
Audio Input Supported	(Built-in Mic)
Audio Output	Supported (Built-in Speaker)
Audio Compression algorithm	u-law algorithm
Audio Compression Rate	57% (uLaw)
Two way Talk	Supported
Channel Bandwidth	Supports 20/40MHz
Frame Rate	20fps
Antenna	built-in FPC antenna
Antenna gain	2~3db
Recording Method	Event Recording/ Continuous Recording
Human Body Detection	Supported
Protocol	TCP/IP
Wireless Frequency	2.4~2.4835GHz
Wireless standard	IEEE 802.11b/g/n

Feature	Specifications
Wireless Security	WEP, WPA
Work with Alexa	Supported
Work with Google Assistant	Supported
PIR Distance	6-12 Mtr
Light Distance Radius	5Mtr
Night Vision	Support (IR 10-20mtr.)
IR LED	2 Led
Storage Micro	SD Card (Max. 128GB)
Motion Detection	Supported
Configurable Region	Supported
Notification Method	APP message push
Private mode	Supported
Human body Detection	Supported
Built in Siren	Supported
No of FloodLight (LED)	2500-3000LM
Luminous Flux	2
FloodLight distance (LED)	6~8M
Reset Button	Supported
Working Temperature	-10°C ~ 50°C
Weatherproof Standard	IP65
Power Supply	110~240V
Power consumption	25W
Body Material	ABS+PC
Dimension	283x180x133mm
Weight	1134g
